

EVERYONE SHARES THE JOB

SAFER RIDES TAKE ALL OF US.

RIDERS

Speak up if you need to slow down, stop, or change the plan. Watch for people and vehicles entering your route.

GROWN-UPS

Stay with children. Choose the route and supervision to fit each child's skills.

DRIVERS

Slow down. Look for people biking before turning or opening a door. Wait until there is room to pass safely.

AFTER THE RIDE

"What felt fun? What would make the next ride easier?" Every rider can help shape the next trip.

Street, path, sidewalk, and helmet rules vary by location. Check current local rules and school guidance.

FOR GROWN-UPS RIDING WITH CHILDREN

READY, SET, RIDE.

Little rides. Big memories.

ABC QUICK CHECK · BEFORE EVERY RIDE

League of American Bicyclists

HELMET

Choose the right size. Wear it level and snug, with the strap fastened.

AIR

Check tire pressure and look for damage.

BRAKES

Use each brake's control; check that it stops the bike.

CHAIN & CRANKS

Make sure cranks are secure and the chain moves freely.

QUICK RELEASE

Fitted levers fully closed; wheels secure. Unsure? Ask a bike shop.

CHECK

Take a slow, brief test ride. If the bike does not work properly, fix it before riding.

PLAN

Choose a route that fits every rider. Check weather, daylight, and places to pause.

"Can the brakes stop the bike?"

ROAD-SAFETY REMINDERS

RIDE A.L.E.R.T.

More good rides.
More stories to tell.
Stay A.L.E.R.T.

Look first. Signal only when safe; move only when clear. Drivers still need to give riders space.

A **Aware**
Scan ahead for turning cars, opening doors, debris, and changing road conditions.

L **Lawful**
Ride predictably with traffic, obey signals, and use the correct lane position.

E **Eye-catching**
Use bright lights, visible clothing, and a road position where drivers can see you.

R **Ride ready**
Check your bike, helmet, route, weather, and supplies before rolling out.

T **Telegraph**
Signal, look, and position yourself early so every move is easy to understand.

CHOOSE A ROUTE TOGETHER

MAKE THE ROUTE FIT THE RIDER.

Choose a route that fits every rider's comfort and experience. Consider paths or calmer streets that suit the trip. Check surfaces, crossings, driveways, traffic, and closures.

Practice stopping, looking behind, and turning in a closed area with a qualified instructor. Get feedback. Keep supervising children.

ASK EACH RIDER

"Which part feels easy? Where should we slow down or take a break?"
