WHEN YOU ARE DRIVING

CHECK.
THEN WAIT.

Before turning across a rider's path, check ahead, beside and behind. Wait until the rider has cleared.

FOR A DRIVING LESSON OR FLEET BRIEFING

Explain the turn. Rehearse the check.

1 SHOW THE CROSSING

Use a local junction scene. Point out where the turn crosses a rider's path.

2 USE THE ACTUAL VEHICLE

With a qualified trainer, review direct vision, mirrors and visibility equipment. Keep the vehicle secured and parked.

3 SAY WHEN TO WAIT

Ask: "Who waits? What must be clear before the turn?" Ask for the answer in the driver's own words.

Follow up later with the same road scene.
